Introduction

This policy sets our approach to the recognition of prior learning and achievement for the purpose of undertaking and achieving an apprenticeship end-point assessment.

This policy has been designed to meet the requirements of Ofqual General Conditions of Recognition (Condition E10)

Policy

Recognition of prior learning is outside of scope of apprenticeship end-point assessment.

Each apprentice is subject to the same end-point assessment regardless of prior learning and achievement.

In order to award an end-point assessment qualification, the apprentice must successfully complete all required end-point assessment components as specified within the apprenticeship assessment plan and delivered by Auto Assess Awards.

Exclusions

This policy does not affect the Gateway requirements which must be met in order for an apprentice to be eligible for end-point assessment.

This policy does not affect any reasonable adjustments or special considerations that may be granted.
